

Railway Track Maintenance Tools

2022 Product Guide

2-3	Contents
4	History and Heritage
5	Standards & Features
6	In-House Testing Facilities

INSULATED RAIL TRACK TOOLS

8	Insulated Open Jaw & Ratchet Spanners
9	Insulated Drive Handle Tee Drivers & A/M Impact Sockets
10	Insulated Tee Spanners
11	Insulated Self Cleaning Tee Spanners, Persuader Arm & See-Tru Spanners
12	Insulated Hammers & Bridge Inspection Hammers
13	Insulated Rail Manipulating Tools
14	Insulated Pandrol Products
15	Insulated Pandrol Products, Slewing & Crowbar for Restricted Areas
16	Insulated Eclip Removal Tools
17	Insulated Slewing Bars & Crowbars
18	Insulated Rail Track Tools
19	Insulated Punches & Setts
20	Insulated Lifting Tools
21-22	Insulated Special Purpose Tools
23	Insulated Jack Handles
24	Insulated Ballast & Contractors Tools
25	Insulated Heavy Duty Grafter, Shuv Holer's & Wheelbarrow
26-27	Insulated Trackside Vegetation Tools

NON INSULATED RAIL TRACK TOOLS

- 28 Non-Insulated Open Jaw, Ratchet & Tee Spanners
- 29 Non-Insulated Hammers, Bridge Inspection Hammers & Slewing Bars
- 30 Non-Insulated Rail Manipulating Tools
- 31 Non Insulated Pandrol Products
- 32 Non-Insulated Punches, Setts & Special Purpose Tools
- 33 Non-Insulated Lifting Tools
- 34 Non-Insulated Tunnel Lance & Tree Lopping System
- 35-36 Non-Insulated Ballast & Contractors Tools

FURTHER INFORMATION

- 37 Product Updates
- 38 Rail Specification J40, J45, J65 Boots
- 39 Roadshow Vehicle : Rail Approved Tools

Jafco Product Guide

Jafco Tools Ltd.

Anchor Lane,
Bilston
WV14 9NE

Jafco Tools Ltd. *(established in 1981)*

Jafco Tools Limited are renowned for the manufacture of specialist hand tools for use in safety critical situations.

No one demands more from their tools than professionals who work in environments where safety and performance are key.

The majority of our extensive tool range features the significant advantages of **Pultruded Fibreglass Handles.**

Jafco is committed to continuous product development and we have conducted extensive research to produce our own high specifications, ensuring that our specialised tools are designed to deliver superior strength, performance and durability in all situations.

We are also extremely active in the field of customer project development, we work closely with our clients to help them achieve their final product goals.

There are **two** British Standards that cover insulated products

BS 8020:2011 and **BS EN 60900:2012**

BS8020:2011

“insulated hand tools for work on or near conductor rail systems operating at voltages up to 1000 V a.c. or 1500 V d.c”.

Tools such as shovels, spades, sledge hammers, crowbars and rail specific tools are covered by this standard.

Jafco products that are BS 8020:2011 compliant are identified and tested in the following manner :

The mechanical specifications of insulated tools shall conform to the relevant requirements of the appropriate British Standard for an uninsulated tool.

BS EN 60900:2012

“hand tools for use up to 1000 V a.c. and 1500 V d.c”. Tools such as screwdrivers, sockets and pliers are covered by this standard.

Marking

Legibly and permanently marked with the following :

- Manufacturer's name or trade mark or other identification
- Unique batch alpha code
- Year of manufacture
- Double triangle symbol with working voltage
- BS Number of the relevant standard

Key Features

Electrical

- Tested to 10000V a.c.
- Pre-conditioned tool type test
- Pre-conditioned material type test
- Routine test of all finished tools

Mechanical

Conformance with relevant:

- British Standards for tools
- Rail industry specifications
- Additional strength and deflection requirements

Certification

- All materials/tools marked \triangle 1000V
- Unique marking for full traceability

Testing

Type test : carried out on at least 3 insulating hand tools that are representative of the tool category.

Temperature test :

Materials & Finished Product :

Cooling chamber for 2 Hours at (-20) °c

Heat Chamber for 2 Hours at (70) °c

Abrasion test :

Over-guard & Under guard material has to be of a suitable hardness to ensure durability

Grip adhesion test : If applicable

Handle pull apart test

Handle bend test

Insulation bond test

Electrical test : Insulating material :

A voltage of 10 kVa a.c.(r.m.s) 50 Hz is applied continuously for 3 minutes with no electrical breakdown and the leakage not exceeding 1mA.

In all cases this test is carried out after conditioning (soaking for 24hrs and wiping dry)

Electrical test : Finishing tool :

A voltage of 10 kVa a.c.(r.m.s) 50 Hz is applied continuously for 3 minutes with no electrical breakdown and the leakage not exceeding 1mA. This is carried out whilst the tool is immersed in tap water up to a level of 24mm from the nearest non-insulated part of the tool.

Flammability test :

on one sample of each different insulating materials.

Routine test :

Carried out on all finished insulated hand tools

- Visual check
- Electrical test – no conditioning and the duration of the test is 1 minute.

Sample test :

Insulating material one sample from each batch.

Finished Product

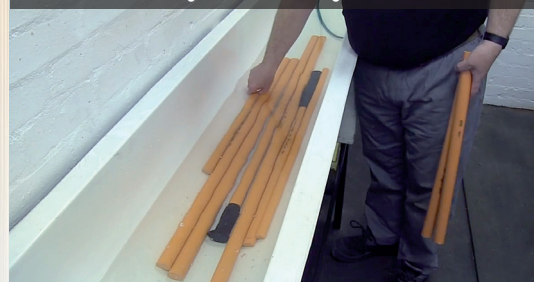

Tested as per the type tests – sample size for testing would depend on the batch size.

Jafco Tools batch sizes would mean the number of pieces for sample testing would be typically 5 pieces.

Records of all the tests that are carried out are kept for a minimum of 7 years.

Soaking / Pre-Conditioning Materials

Abrasion Testing

Hardness Testing

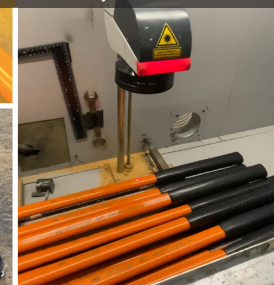

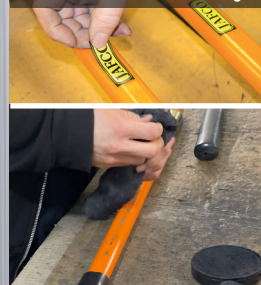

Fatigue and Static Load Testing

Electrical Testing Facility

Marking and Traceability

Rail Track Tools

Insulated and Non-Insulated

Jafco is the major supplier in the U.K. of insulated and non-insulated railway track maintenance tools.

The Jafco track tool range has been developed over many years, in partnership with London Underground and Network Rail (formerly British Rail).

Designed for working on or near live electrified track systems and non-electrified track conditions.

Insulated track tools conform to BS 8020:2011

(See pages: 5 & 6 for Standards, Features and In-House Testing Facilities)

Insulated Open Jaw & Ratchet Spanners		
No.	Codes	Description
Key: Catalogue Code example : FBP158/O BR/NR Catalogue Code example : 0039/052052 L/U Catalogue Code example : LU610/9535		
1	FBP158/O 0039/052052 FBP158/OU LU610/9535	G/P Patrolman's Fishbolt Spanner for 1.5/8" Sq. nuts - Overall length 36" Open Jaw (Straight)
2	FBAC/O LU610/9708	'A' Chair Fishbolt Spanner for 1.3/4" Sq. nuts with slimmer head - Overall length 36" Open Jaw - Head thickness 22mm
3	BJ48/O LU610/9690	Block Joint Spanner for insulated block joints (London Underground) Overall length 48" 1.7/8" AF Open Jaw - Head marked BJ
4	FBP134/O 0039/052051	G/P Patrolman's Fishbolt Spanner for 1.3/4" Sq. nuts - Overall length 36" Open Jaw (Straight)
5	FBP134/OU LU610/9540	Crossing Spanner for 1.3/4" Sq. nuts - Overall length 48" Modified Jaw

Insulated Open Jaw & Ratchet Spanners		
No.	Codes	Description
6	FBRO/O 0039/052072	Run-On Fishbolt Spanner for 1.5/8" Sq. nuts - Overall length 15" Open Jaw (Straight) 20mm head thickness
7	FBCN/O 0039/052071 FBCL/O LU610/9562	Check Rail Fishbolt Spanner for 1.5/8" Sq. nuts - Overall length 35" Open Jaw (Straight) 20mm head thickness - for use on nuts inside the check rail
8	FBMP/O 0039/052305 FBMPL/O LU610/9746	Patrolman's Multi-Purpose Fishbolt Spanner for 1.5/8" & 1.7/8" Sq. nuts - Overall length 995mm - Designed for occasional use to knock in keys
9	FBC178/O 0039/052029	Fishbolt Spanner for Conductor Rail - 1.7/16" AF Open Jaw - Cranked
10	RSR158/O 0039/052306 RSR158/OU LU610/9650	Ratchet Spanner Reversible - Remote Switching (Lowell) for 1.5/8" Sq. Nuts Overall length 38"
10a	RSR158H/O LU610/9521	Ratchet Spanner Reversible - Remote Switching (Lowell) for 1.5/8" Hx. nuts Overall length 38"

Insulated Open Jaw & Ratchet Spanners		
No.	Codes	Description
11	RSL158/O 0039/052307	Ratchet Spanner - Reverse Lever on Head (Hall) for 1.5/8" Sq. nuts - Overall length 36"
11a	RSL134/O LU610/9566	Ratchet Spanner - Reverse Lever on Head (Hall) for 1.3/4" Sq. nuts - Overall length 36"
12	RD3436R/O 0111/120345	Reversible 3/4" Shallow Depth Switch Ratchet Drive - Overall length 36" - 3/4" - 1" Adaptor Available
12a	RD34R/O 0111/120346 LU610/9764	Reversible 3/4" Shallow Depth Switch Ratchet Drive - Overall length 48" - 3/4" - 1" Adaptor Available
13	DA1925	Adaptor 3/4" - 1" (Drive Adaptor for RD3436R/O & RD34R/O)
14	FBS48HX/O 0039/052312	First Bolt Installation Socket Spanner - Overall length 38"

Insulated Drive Handle Tee Drivers & A/M Impact Sockets		
No.	Codes	Description
Key: Catalogue Code example : DH2218/O BR/NR Catalogue Code example : 0094/008038		
1	DH2218/O 0094/008038	Drive Handle 22mm dia. Spigot - Overall length 18" (450mm)
1a	DH2224/O 0094/008037	Drive Handle 22mm dia. Spigot - Overall length 24" (600mm)
2	TD234/O	Tee Driver No.2 - 3/4" (19mm) Sq. Torque 170lbs ft (225Nm) - Overall length 30"
3	TD434/O	Tee Driver No.4 - 3/4" (19mm) Sq. Torque 220lbs ft (300Nm) - Overall length 28"
4	TD51/O 0039/127041	Tee Driver No.5 - 1" (25mm) Sq. Torque 220lbs ft (300Nm) - Overall length 28"
5	IS25R/2128	1" Drive x 21mm x 28mm Rectangular Impact Socket for Euro Rail Fastenings

Insulated Drive Handle Tee Drivers & A/M Impact Sockets		
No.	Codes	Description
6	IS25HX/39	1" Drive x 39mm Hexagon Impact Socket for Euro Rail Fastenings
7	IS25SQ/35	1" Drive x 1.3/8" (35mm) Square Impact Socket
8	IS25SQ/30	1" Drive x 1.3/16" (30mm) Square Impact Socket
9	IS19BQ/25	3/4" Drive x 1" (25mm) Bi-Square Impact Socket

Insulated Tee Spanners

Insulated Tee Spanners		
No.	Codes	Description
Key: Catalogue Code example : TS78NR/O BR/NR Catalogue Code example : 0039/052068 L/U Catalogue Code example : LU610/9563		
1	TS78NR/O 0039/052068	Box Tee Spanner 7/8" Square Socket for 1/2" Coach Screws - For N/R - CR Insulator - Overall length 30"
1a	TS78LU/O LU610/9563	Box Tee Spanner 7/8" Square Socket for 1/2" Coach Screws - For L/U (wooden sleepers) Overall length 30"
2	TS7838/O 0039/127036	Box Tee Spanner 7/8" Square Socket for 1/2" Coach Screws - For N/R - CR Insulator Overall length 38" (960mm)
3	TS39HX/O 0039/052301	Box Tee Spanner with 39mm HEX Euro Rail Fastenings
4	TS21R/O 0039/052303	Box Tee Spanner with 21mm x 28mm Rectangular for Euro Rail Fastenings
5	TS1BS/O LU610/9672	Box Tee Spanner 1" Bi-Square L/U - For Slipper Runs - 1" Bi-Square Socket

Insulated Tee Spanners		
No.	Codes	Description
6	TS20HX/O 0039/052297	Box Tee Spanner with 20mm Hex Hilti Bolt for CR Insulators & Guard Boards
7	TSCLA/O LU610/9570	Box Tee Spanner L/U - For Central Line Anchors - Do not use L/U specification on N/R infrastructure
8	TS17HX/O LU610/9564	Box Tee Spanner 17mm HEX Socket L/U - For coach screws (concrete sleepers)
9	TS21HX/O LU610/9569	Box Tee Spanner 21mm HEX Socket L/U - For adjustment switch cups - 1/2" BSW (A/J Blocks)

Insulated Self Cleaning Tee Spanners, Persuader Arm & See-Tru Spanners

No.	Codes	Description
Key: Catalogue Code example : TS1316/O BR/NR Catalogue Code example : 0039/052263 L/U Catalogue Code example : LU610/9549		
1	TS1316/O 0039/052263	Box Tee Spanner 1.3/16" Sq. Socket for Chair Screw Spikes - Designed for NR or LU Self Cleaning - Persuader Arm Available : NR - PA939/O or LU - PA939/OU
	TS1316/OU LU610/9549	
2	TS138/O 0039/052264	Box Tee Spanner 1.3/8" Sq. Socket for 1.5/16" T-Head Bolts (KT/ST), Scarf Joints, Nuts etc Self Cleaning - Overall length 30"
	TS138/OU LU610/9755	Persuader Arm Available : NR - PA939/O or LU - PA939/OU
3	PA939/O 0039/000033	Persuader Arm for use with TS1316/O & TS138/O Tee Spanners to apply extra Torque direct to socket - Overall length 939mm

Insulated Self Cleaning Tee Spanners, Persuader Arm & See-Tru Spanners

No.	Codes	Description
3a	PA939/OU LU610/9718	Persuader Arm for use with TS1316/OU & TS138/OU Tee Spanners to apply extra Torque direct to socket - Overall length 939mm
4	STICB/O 0039/058579	See-Tru Insulator Clip Bolts - For Conductor rail insulator clip bolts (see-tru type) Combination screwdriver/box spanner - Fully insulated Fibreglass drive & shaft - Overall length 35.5" (900mm)
5	STICB415/O 0039/127037	See-Tru Insulator Clip Bolts - For Conductor rail insulator clip bolts (see-tru type) Combination screwdriver/box spanner - Fully insulated Fibreglass drive & shaft - Overall length 41.5" (1055mm)

Insulated Hammers & Bridge Inspection Hammers

Insulated Hammers & Bridge Inspection Hammers		
No.	Codes	Description
Key: Catalogue Code example : KH6CS/O BR/NR Catalogue Code example : 0039/034341 L/U Catalogue Code example : LU610/9556		
1	KH6CS/O 0039/034341	6lb Keying Hammer - Classic Style Handle c/w 6" Steel Overstrike Sleeve
2	KH6ES/O LU610/9556	6lb Keying Hammer - Polypropylene with Solid Fibreglass Core
3	KH10CS/O 0039/034340	10lb Keying Hammer - Classic Style Handle c/w 6" Steel Overstrike Sleeve
4	KH10ES/O LU610/9557	10lb Keying Hammer - Polypropylene with Solid Fibreglass Core
5	SH732/O	7lb Sledge Hammer - Polypropylene with Solid Fibreglass Core

Insulated Hammers & Bridge Inspection Hammers		
No.	Codes	Description
6	SH14CS/O 0039/030046	14lb Sledge Hammer - Classic Style Handle - c/w 6" Steel Overstrike Sleeve
	SH14CSL/O LU52111/173	
7	CH2510/O	2.5lb Club Hammer - Overall length 10" (250mm)
	CH410/O	4lb Club Hammer - Overall length 10" (250mm)
8	AC16BS/O	16oz Claw Hammer - Overall length 13" (325mm)
	CLH20/O 0111/103499	20oz Claw Hammer - Overall length 13" (325mm)
9	BP16BS/O	1lb Ball Pein Hammer - Fibreglass Handle - c/w Steel Overstrike Sleeve
	BPH2N/O 0086/003805	2lb Ball Pein Hammer - Fibreglass Handle - c/w Steel Overstrike Sleeve
	BPH2L/O LU52111/018	

Insulated Hammers & Bridge Inspection Hammers		
No.	Codes	Description
10	BIH124/O 0039/127121	Bridge Inspection Hammer - 1lb Head with Point & Striking Face - Overall length 24"
11	BIH142/O URLT/003809	Bridge Inspection Hammer - 1lb Head with Point & Striking Face - Overall length 42"

Insulated Rail Manipulating Tools

Insulated Rail Manipulating Tools		
No.	Codes	Description
Key: Catalogue Code example : SE/O BR/NR Catalogue Code example : 0039/017090 L/U Catalogue Code example : LU610/9551		
1	SE/O 0039/017090	Spike Extractor including Wedge
2	SEW 0039/017089	SE Wedge for Spike Extractor - Suitable for both Insulated and All Metal
3	SEEF 0039/017095	SE Extended Foot 165mm for Spike Extractor - Suitable for both Insulated and All Metal
4	RLLN/O 0039/005040 RLLL/O LU610/9551	Conductor Rail Lift Lever - Used in conjunction with special bearing (fulcrum) block
5	RRTBN/O 0039/001005 RRTBL/O LU285/9508	Ratchet Rail Turning Bar - for turning Bull Head & Flat Rails

Insulated Rail Manipulating Tools		
No.	Codes	Description
6	RTBFB/O 0039/127049	Rail Turning Bar Non-Slip for Flat Bottom Rail - Zinc Plated
7	RTBBH/O 0039/002032	Rail Turning Bar for Bull Head Rail - Zinc Plated
8	JCHN/O 0039/031188 JCHL/O LU285/9509	Japanese Cant Hook - For turning & manipulation of Bull Head Rails
9	SBRT/O 0039/069317	Stock Rail Bolt Retaining Tool - Flat Bottom
10	SP1158/O 0039/052309	Spannapuller Type 1 with Multi Purpose Fishbolt Spanner for (1.5/8" and 1.7/8" nuts) and Panpuller end - c/w Carrying Strap
11	SP2158/O 0039/052310	Spannapuller Type 2 with Angled Fishbolt Spanner for (1.5/8" nuts) and Panpuller end - c/w Carrying Strap
12	RCST 0039/058001	Replacement Carrying Strap for Spannapuller & Eclip Removal Tools

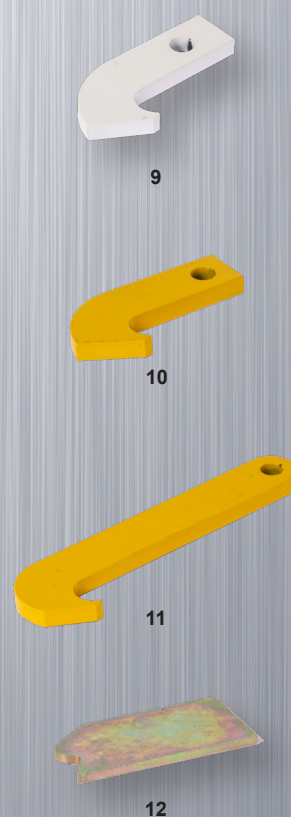

Insulated Pandrol Products

Insulated Pandrol Products		
No.	Codes	Description
Key: Catalogue Code example : PPN/O BR/NR Catalogue Code example : 0039/040129 L/U Catalogue Code example : LU610/9510		
1	PPN/O 0039/040129 PPL/O LU610/9510	Panpuller - for manual installation and removal of Pandrol brand: e, P & PR Series Rail Clips
2	PPT/O 0039/040133	ePlus Hand Tool MkII, for manual installation and extraction
3	PSN/O 0039/040133	Pansetter - for correctly locating the Pandrol clip housing and the rail foot
4	PSL/O LU610/9514	Pansetter - LU for correctly locating the Pandrol clip Shroud Removed
5	PLPN/O 0039/040135 PLPL/O LU610/9646	Panlock Puller - for installation & extraction of Pandrol Brand Panlock Bull-Head Rail Fastenings

Insulated Pandrol Products		
No.	Codes	Description
6	FCINS/O 0111/120089	Fast Clip Installation Tool (Yellow Head)
7	FCEX/O 0111/120087	Fast Clip Extractor Tool (Cream Head)
8	FCMUL/O 0111/120088	Fast Clip Sleeper Lifter (Blue Head)
9	PHEP/AM 0039/042741	Hook Panpuller ePlus, RT60, Short Reach
10	PHCD/AM 0039/042743	Hook Panpuller Universal
11	AE18069C24	Hook Panpuller Long Reach
12	HWG/AM 0039/030100	Hook Wear Gauge For Panpuller Hooks

Insulated Pandrol Products, Slewing & Crowbar for Restricted Areas

Insulated Slewing Bars & Crowbars

Insulated Slewing Bars & Crowbars		
No.	Codes	Description
Key: Catalogue Code example : SBPEN/O BR/NR Catalogue Code example : 0039/031123 L/U Catalogue Code example : LU35/9533		
1	SBPEN/O 0039/031123	Slewing Bar - 1" Hex Alloy Steel Point End only. - Overall length 60"
2	SBCEL/O LU35/9533	Slewing Bar - Carbon Steel Heel 1.1/8" dia. & Alloy Steel Point 1" Hex Alloy - 1.3/8" dia. Shaft - Overall length 60" (For use on LU only)
3	CBCEN/O 0039/031193	Crowbar - 1.1/8" Chisel End only - 1.3/8" dia. Shaft - Overall length 60"
4	CBHEN/O 0039/031173	Crowbar - 1.1/8" Heel End only - 1.3/8" dia. Shaft - Overall length 60"

Insulated Slewing Bars & Crowbars		
No.	Codes	Description
5	SBP112/O 0039/031223	Slewing Bar - 1" Hex Alloy steel point end only. - 1.1/2" dia. Shaft - Overall length 60"
6	CBC112/O 0039/031293	Crowbar - 1.1/8" Chisel end only. - 1.1/2" dia. Shaft - Overall length 60"
7	CBH112/O 0039/031273	Crowbar - 1.1/8" Heel end only. - 1.1/2" dia. Shaft - Overall length 60"
8	BP66/O URLT/011571	Beater Packer DLM - Overall length 66" (1675mm)

Insulated Rail Track Tools

Insulated Rail Track Tools		
No.	Codes	Description
Key: Catalogue Code example : PCNR/O BR/NR Catalogue Code example : 0039/005094 L/U Catalogue Code example : LU494/9501		
1	PCNR/O 0039/005094	Point Cleaner - For cleaning grease etc. From points and compacted leaves and debris on rail heads.
	PCLU/O LU494/9501	
2	LSDIN/O 0039/052272	Line Scraper/De-Icer - Used to remove Ice from Conductor Rails
	LSDIL/O LU610/9719	
3	PA16HD/O	Pad Scraper H/D - Overall length 28.3/4" (730mm)
4	PPNR/O 0039/040138	Paper Picker - For Refuse Collection
	PPLU/O LU824/98	
5	LP40/O 0111/109791	Litter Picker - with Crocodile Jaw

Insulated Rail Track Tools		
No.	Codes	Description
6	LP58/O	Long litter picker/phone retriever - Overall length 58"
7	PAH36/O 0039/030047	Pick Handle - To fit Pick Heads with No.6 Universal Eye
	PAH36L/O LU610/9651	
8	PS/O	Pick Handle - To fit Pick Heads with No.6 Universal Eye
9	PAHCP7 0039/042665	7lb Chisel & Point Pick Head with No.6 Universal Eye
10	BPH6 0039/042675 LU910/9752	Beater Pick Head with No.6 Universal Eye
11	PHH7/O	7lb Chisel & Point Pick Head - Comes with PS/O Insulated pick handle
12	OB/O	Oiling Brush 50mm - For lubricating rail

Insulated Punches & Setts

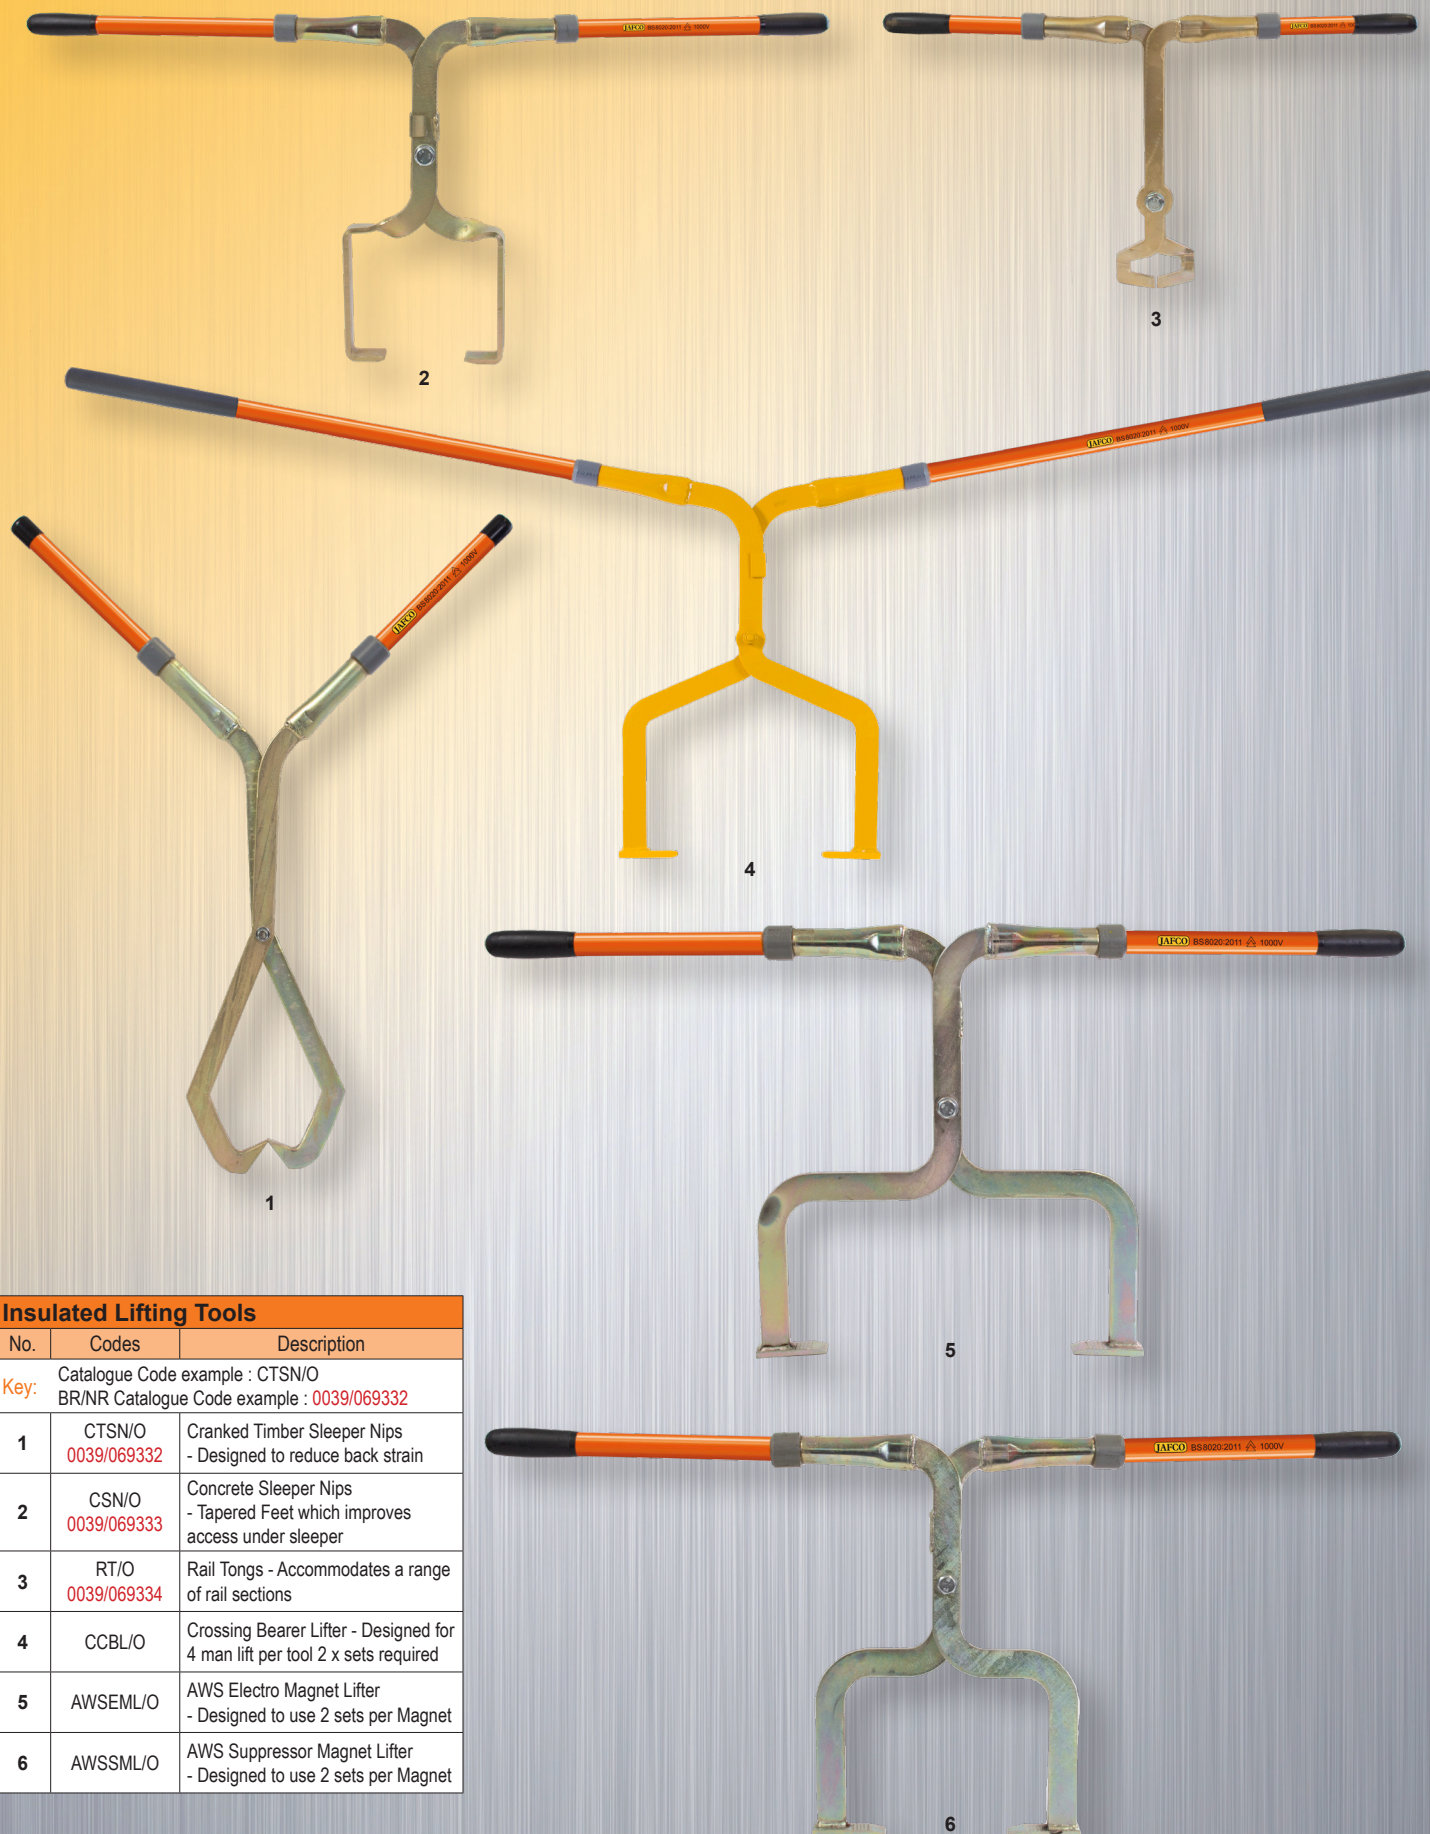

Insulated Punches & Setts		
No.	Codes	Description
1	Catalogue Code example : KENR/O BR/NR Catalogue Code example : 0039/025017 L/U Catalogue Code example : LU610/9547	
	KENR/O 0039/025017	Key Extractor - For removal of stubborn Wood and Steel keys - For Bull Head Rail
	KELU/O LU610/9547	
2	HSNSN/O 0039/052271	Hexagon Sett (Nut Splitter) - For splitting frozen nuts & cutting bonds
	HSNSL/O LU610/9515	
3	TWNR/O 0039/084028	Taper Wedge (Rail Adjusting Wedge) - For opening out rail joints - not for cutting or chiselling
	TWLU/O LU610/9548	

Insulated Punches & Setts		
No.	Codes	Description
4	DP19FDN/O 0039/040136	Dolly Punch (Fang Drift) 19mm dia. - Punch Head Overall length 15" (385mm) - For removal of difficult bolts
	DP19FDL/O LU610/9571	
5	DP19DN/O 0039/040139	Dolly Punch Short (Drift) 19mm dia. L60mm - Punch Head Overall length 8" (200mm) - To assist in removal of seized rail Fastenings
6	TP35DN/O 0039/040155	Tapered Punch (Drift) 35mm dia. (Tapered 35mm to 10mm dia.) - Punch Head Overall length 15" (385mm) - Used to assist the alignment of Fish Plates etc.

Design Improvement – October 2017

Insulated Flat Bottom Rail Turning Bar – Non-Slip, BR/NR Catalogue Code: 39/127049.

Jafco code : RTBFB/O

Following a design improvement to the head and trials conducted at various Network Rail locations, we have received positive feedback.

Network Rail have approved the new design and issued Jafco Tools with a new CAT No. 39/127049

Changed colour of coating to show new design and improve visual aid.

Design Improvement – October 2017

Non-Insulated Flat Bottom Rail Turning Bar – Non-Slip Code: 39/127039.

Jafco code : RTBFB/AM

Not for electrified track systems

Following a design improvement to the head and trials conducted at various Network Rail locations, we have received positive feedback.

Network Rail have approved the new design and issued Jafco Tools with a new CAT No. 39/127039

Changed colour of coating to show new design and improve visual aid.

Jafco Rail Specification Boots

Jafco J40 Rail Specification Boots (3 - 14)

- CE EN 20345:2011 S3 HRO
- Waterproof membrane Incorporated in outer shell
- Slip resistant sole
- 300 Degree heat resistant
- Kevlar toe protection 200J
- Composite midsole & toecap
- Metal free
- Penetration resistant to 1100N
- Water resistant
- Antistatic properties
- Slip resistant
